

DISINFECT WITH CONFIDENCE

Intervention[®] Disinfectants, powered by Accelerated Hydrogen Peroxide[®], uses a disinfectant technology to create a safe and biosecure environment for all.

**Be
Certain.**

Responsible

Lowest EPA toxicity rating: non-toxic, non-irritating, odor-free, and does not require Personal Protective Equipment (PPE).

Efficacious

Proven delivery of superior kill performance against a broad spectrum of organisms.

Sustainable

Hydrogen peroxide is 100% biodegradable and breaks down into water and oxygen for easy disposal and minimal to no environmental impact.

Cleaner

AHP[®] cleans while it disinfects and disinfects while it cleans, saving time and money.

Compatible

Designed to be compatible with a wide range of materials, protecting assets by reducing corrosion and wear.

INTERvention®

FAMILY OF PRODUCTS

CONCENTRATE

- ✓ Effective against ASFv, SARS-CoV-2*, PEDv, PRRS and more
- ✓ Easy to dilute and a cost effective solution for large surface disinfection
- ✓ Excellent foaming capabilities
- ✓ 1:64 dilution for disinfection and 1:256 for pre-soak
